With its realistic 3D aesthetic simulation tools, sculptors software makes it easy to demonstrate surgical and non-surgical procedures on a three dimensional image of a patient. Often time's patients wonder what they will actually look like. The Canfield VECTRA 3D Face and Breast Sculptor delivers answers to this question with an incredibly accurate visual experience for patients. Naples Cosmetic Surgery Center is the only location in Southwest Florida where the Vectra 3D is available. [naplescosmeticsurgerycenter.com](http://naplescosmeticsurgerycenter.com)

“The patient can explain exactly what goals they are looking for and we can discuss their options and show them a simulation that truly helps them make a decision”

Dr. Andrew Turk, medical director  
Naples Cosmetic Surgery Center
